

Please note:

Radford Panels, from their manufactory near Warwick, produce a selection of hand-made panels for the Mk 2 A40 Farina.

Prospective purchasers should bear in mind that, like any non-standard product, there is a good chance that there will be extra work needed in order to ensure a satisfactory fit.

Our Club officials cannot be expected to act as intermediaries in any dispute arising from complaints real or imaginary. It is simply a fact of life that although skilled men have created these panels, the end result can never be as accurate as those formed from the original BMC presses.

Please check with Radfords for current prices and availability.
